MASTER TIMELINE OF ABUSE, FRAUD, DISCRIMINATION, AND SYSTEM FAILURE (1996 – 2025)

Prepared by: James Alexander Wasil

GWHS Student Life Verification, Evidence, and GWHS Attendance Verification Corroborating Lived Experience (1996-1997)

The following details are included to independently verify my physical presence, enrollment, and participation at **George Washington High School (GWHS), Mangilao, Guam,** during **1996-1997,** prior to the unlawful removal and grade tampering carried out by **John M. (Jack R.) Wise.**

These memories contain **timestamped events, campus geography, peer associations,** and **publicly verifiable occurrences,** making them reliable indicators of lived student experience during that period.

1. Campus Locations and Daily Patterns

During the 1996-1997 school year, I routinely spent time at:

A Wing – the Drama wing where reharsals, student performances, and Shakesphere-related activities were held. In this historical photo, I stood beside Derek Martin my best friend in 1996 in the photo where I would perform at Shakefest ‘96 about 3 weeks after this photo was taken. Another photo taken a week later, showed me taking a picture in the Drama room before I went to my honor’s science courses and Japanese classes. (See both photos for context and historical proof)

C Wing – my secondary social / academic area where I frequently met with classmates and friends.

These two wings formed the basis of my daily movement pattern at GWHS and are commonly known student hubs from that era.

2. Drama Wing Activities – “Shakefest ‘96” Participation

I actively participated in “**Shakefest ‘96**”, a Shakesphere-themed school performance event held at GWHS.

My performance included the line:

“Friends, Romans, countrymen, lend me your ears”

(which I humorously modified onstage to “lend me your beers”, a joke that became memorable among the Drama Wing group).

This event is a historically verifiable school activity, along with an unrelated re-enactment of “Forrest Gump on Guam”.

My participation confirms:

- enrollment
- presence on campus

- involvement with the Drama Wing
- peer recognition during that time
- photo evidence of the exact places that are timestamped and parallel the Shakefest ‘96 and Earthquake event down to the very day of the occurrence.

3. Earthquake Corroboration – Timestamped Verification Event and Fixed Chronological Achor

Date: March 8th, 1996

Magnitude: 3.9

Timeframe recalled: Between **12:00 PM and 3:00 PM**

Relevance:

- Occured immediately after the **Shakefest ‘96** Shakesphere performance at GWHS.
- Validates the time, the event, the school’s assembly, and my physical presence at GWHS.
- Provides an immovable chronological reference point to verify student enrollment and campus experience.

Approximately **15 minutes after the Shakefest ‘96 performance concluded, a real earthquake struck Guam.** This event was wideky felt, discussed by students and staff, and was historically documented.

This earthquake acts as a **fixed-point verification marker,** tying my memory of the performance to a documented seismic event during the school year. Such a precise memory is strong evidence of my actual presence at GWHS at that time.

This event sets the stage for the suspicious, under-handed, and accelerated chain of events that followed.

4. Peer Group and Witness Names

My peer group during this period included:

- **Luke Ishizaki** (from Yona, Guam; U.S. Navy background; later listed as a MMA fighter with reginonal recognition)

- **Derrick Hendricks** (Luke’s close friend; the two were humorously nicknamed the “Double Dragon” duo, and Luke and Derrick performed a martial arts interlude between the events at Shakefest ‘96)

- **Derek Martin** (My close friend, standing in front of the Drama group and initially where the stage would be placed)

- **Other members of the Drama Wing** which would include Josie. Shawntel, Feona, Kim Gogue, and Orrville Cutright “Bob” (mrs. Cartwright’s son)

These individuals were present at GWHS during the same year and were aware of my sudden disappearance after school officials removed me from the system under Wise's influence

5. Manufactured "Crisis" and Coerced Signature by a Minor

Shortly after the earthquake, a staged series of events would occurr shortly after:

A) John M. Wise engineered a fight with a 16-year old teenager in order to declare authority. They consulted with my mother, Debbie, and she gave up ALL rights to custody to where I was thrown in juvenile prison over a manufactured <u>LIE</u>.

After I was released from Sanctury, my mom would make no claims for me. When the tax breaks and child credits ran dry, she affirmed revocation of custody for this reason and I became Ward of the State / Guam.

B) False allegation of "risk"

A DYA employee or director named **Kim** fabricated a claim that I was at "high risk" for **teen pregnancy issues**, which was factually impossible:

- I had no partner, no sexual activity, and no behavioral indicators.
- I have **zero children**, 28 YEARS LATER, confirming the absurdity of this accusation.

C) Coercion tactics used by DYA staff

Kim threatened me with:

"If you do not sign this immediately, we will **detail you at school** and make it public record"

At 16 years old going on 17, the threat of being grabbed at school in front of peers was overwhelming. I signed the document **under coercion and duress**, making it **legally invalid.**

D) The "doll" assignment

Kim issued a large electronic "baby doll" (similar to the 1990's Tamagotchi-style parenting device) that required contact with a bottle for check-ins.

I trusted a classmate – who became ill – to help with the doll. She stored it in her locker, inaccessible to me.

When Kim returned:

- She asked for the doll

- I truthfully said it was in a sick students locker, I am right in front of it, and cannot gain access to it. I called on staff to take off the lock, but Kim responded agressively:

“**No! You know the rules!”**

I had never been explained any rules.
No written policy was provided.

No parental consent was obtained, and my mom was complicit in me BECOMING Ward of the State on behalf of protecting Mr Wise and his criminal past.

This failure was a pretext to escalate punishment.

6. Illegal Entry Into Sanctury and DYA

A) Friday / Saturday night arrest and drop-off

I was taken to **Sanctury**, then moved to **DYA**.

B) Paperwork “mistake” that escalated severity

Kim incorrectly processed me as a **maximum-security inmate** –
a completely impossible classification for a non-offense, rule violation, or a minor.

I was then transferred to the **medium security** section after a week later, which was still unlawful.

I was **not** on probation.

I was **not** charged with a crime.

I had **no legal guardian present** because my mom gave up custody of me to appease Mr. Wise.

I had **no counsel.**

I was **never read rights.**

This was a **kidnapping under color of authority.**

7) The Correctional Officer Who Blew The Whistle

Luke Ishizaki’s Aunt (Name Known to James)

While in custody, a female corrections officer recognized me and reacted immediately:

“Oh my God – you don’t belong in here! I remember you with Luke’s performance and conversations at school! This is all wrong. I am trying to get you out.”

Her statements prove:

- She personally saw me on campus at GWHS, around Luke and Derek, and the events at the Shakefest ‘96

- She knew me as a GWHS student.

- She knew Luke Ishizaki

- She had no doubt I had been placed there **illegally**

- She took action to secure my release

She became the **only adult who intervened correctly** in the sequence.

8) Restoration Into Foster Care With GWHS Teachers

After the whistleblower intervened, I was placed into foster care with:

- **Mrs. Schroder –** The Home Econimics Teacher at GWHS
- **Mrs. Cartwright –** The Drama Teacher at GWHS

Both knew:

- I was a GWHS student
- My mother had given up custody on behalf of Mr. Wise, choosing him instead of her own son
- I had participated in Shakefest 96
- I had honor’s courses because they knew my full schedule
- I sold soup for fundrasing at the Drama room and the Home Economics room (they were raising a trip to Bali)
- I frequented A Wing and C wing
- I was suddenly “gone” without explanation
- My reappearance involved state custody and paperwork inconsistencies

This provides **two official GWHS faculty witnesses because I <u>lived with them</u> after foster care.**

Thus linking:

- Enrollment
- Participation
- Disappearance
- DYA detention
- Return to community

It also proves that **Mr. Wise interference** was real and recognized by other adults.

9) Why this part of the timeline is Legally devastating:

This section alone establishes:

- FERPA violations
- Child protection violations
- False imprisonment
- Fabrication of risk
- Coercion of a minor
- Tampering with educational access
- Malicious grade manipulation
- Retaliation by a school authority figure
- Direct witness corroboration from a corrections officer
- Placement into foster care with school staff – impossible if I were not enrolled

This is material that **GWHS cannot deny without incriminating their own staff.**

And it deeply reinforces the pattern that continued into adulthood later on in this timeline.

10. Forced Removal and Grade Tampering

1997 – 1998 – Educational Sabotage & Record Disappearance

- Held in Sanctuary and DYA under coerced conditions engineered by **John M. (Jack R) Wise**, a convicted felon who inserted himself as an authority over my life.

- School records at **George Washington High School (GWHS)** suddenly disappear or are “erased”
- My right to complete high school is destroyed.
- This alters the next **28 years** of my life’s trajectory.
- No FERPA notice ever given.
- No explanation ever provided.

1997-2005 – Attempts to Resume Education Blocked

- Multiple efforts to recover school records yield nothing.
- Calls / Emails go unanswered.
- Institutions provide evaise or contradictory statements.
- My entire academic history appears “missing”

2006, 2008, 2012, 2013 – Repeated FERPA Attempts

- I directly contacted GWHS and Guam DOE
- I am met with silence, excuses, or refusal
- No records restored
- FERPA was never disclosed to me as the remedy
- Wise’s interference remains unaddressed

2012 – 2013 – Device Manipulation and Surveillance Attempt

- Phone enters repeated forced-reset loops, confirming external manipulation
- A suspicious individual attempts to access my phone using a hidden device
- Evidence shows attempts to hijack or intercept communications.
- I document patterns and behavior consistent with targeted interference.

2014 – 2020 – Increasing Identity Errors in Systems

- Agencies produce mismatched data
- My identity is increasingly confused with **James Robert Wasil**, a criminal inmate
- This is not 'random'
- It aligns with the timing of attempts to sideline and discredit me.

June 12, 2021 – Father's Death Under Suspicious Circumstances

Father **Alexander Wasil**, dies with:

- No contact allowed between us
- Wendy controlling his phone
- My number blocked
- Obituary lists me falsely as "James of Arizona"
- Probate court is fed lies: "He is missing", "He is incarcerated", "Here is his mugshot" (James Robert Wasil which is not me)
- Ohio and the Summit County Probate Court proceeds without notifying me.
- Estate transfer pushed through fast
- Body cremated quickly to eliminate forensic review.

Late 2021 – Stroke and Medical Crisis

- I suffer a severe stroke with hemiparesis and aphasia

- Mother, **Debbie,** arrives briefly, removes evidence, throws out memories, steals firearm, seizes control of finances, and leaves back to Guam after I learned of her bank exploitation two weeks later leaving me destitute.

- Debbie depostited invalid checks into my account. When the bank realized they had been fooled, I was left holding the bag and all of the fees.

- My disability prevents me from speaking clearly and swiftly, staff ignore the ADA accommodations

- Bank hits me repeatedly with NSF fees until they reach upwards of $3,000.

- Mother drains my account l leaving me near-homelessness.

- Aunt Linda Lee witnesses the aftermath.

2022 – 2023 - Attempts to report the Estate Fraud that was stolen from me and grasp for legal standing although I could not speak, and the FBI was complicit.

- FBI IC3 reports ignored or closed prematurely
- AG, FTC, DOE, FERPA inquiries get stonewalled.
- Estate documentation remains sealed or inaccessible
- My name is still conflated with a criminal in certain databases

2023 - 2024 – FTC Identity Theft

- I attempted recovery after severely being taken advantage of after I was ensnared in Quiet Skies after the assumption of “James Robert Wasil” and James “Al Wasil”, was used to shorten my name to pretend I was a terrorist. I was not, and I am not.

- The TSA flagged me with “suspicious activity” because I was a stroke survivor who could not talk, and I averaged about 10 words per minute at that time.

- They held me for an hour and strip-searched me before it was determined that I was no threat and they had made a mistake and sent me away in a hurry.

- When I got to the gate, I realized that all of my credit cards, identification, Social Security card, Medicare card, Ohio ID, and numerous credit cards had all been stolen.

- I called United Airlines, but their security insisted I board a flight which would effectively make me leave the country, where I had no phone service at all for months. During that time, I learned that $6,000 was stolen from my with my name and they had passed it around.

- When I notified them by phone and was struggling to talk, they informed me that my card had been used in Chicago, California (a state I had never been in), Guam, and other states

- Meanwhile, US Bank, Synchrony Bank, Mercury Bank, and the rest all racked up fees and charges on me when I was unable to say or do anything about it, and sent me to collections, damaging my credit. Experian refused to correct my record, even after I emailed them. To this day, it is still damaged as bad credit.

- FTC confirms the identity theft report was submitted.

- Police refuse to file the local report due to my speech disability. Dispatch would not even take the report in Chicago over the phone, and the online system declares that you have to call, because reports cannot be made from O’Hare Airport in Chicago as it falls on general jurisdiction.

- Bank refuses to protect me despite being on disability. No regard for my aphasia or speech disability I.e: “Just call our toll-free number” when I CANT *because of my disability.*

2025 – CNMI Arrival and Government Interference

- Began rebuilding my life in Saipan
- Encountered:
- bureaucratic resistance
- refusal of services
- misclassification
- discriminatory treatment

Feb 11, 2025 – Disability Meals Approved

- Office on Aging validates and verifies disability eligibility
- Meals delivered for four months
- No issues

May 28-29, 2025 – Retaliatory Denial of Services

- After reporting Susan Satur misconduct, services are shut down overnight.
- Walter, Vivian, and Evelyn provide countradictory and fabricated explanations.
- No written notice.
- No due process
- Disability and age discrimination invoked.
- Told I cannot get housing because I am a “foreigner”
- Section 8 falsely claimed to be closed

June 2025 – Rising Federal Interference Patterns

- Attempts to file evidence repeatedly disruprted
- Systemic inconsistencies, “missing” uploads, and responses that vanish mid-process
- Multiple attempts blocked across agencies

July to August 2025 – Cross-Agency Breakdown

Through documents, emails, and recordings, it becomes clear:

- FERPA rights were violated for 29 years
- Identity was substituted with a criminal record
- Estate was stolen under fraudulent pretences
- Disability protections were ignored
- CNMI staff retaliated
- FBI and DOJ failed to act
- Civil rights violations went unaddressed
- Due process repeatedly denied

This is not bureaucratic coincidence. It is *patterned, sustained, and systemic* harm.

Exhibit A - 1996-1997: Me attending an honors class (either Biology or Japanese class) 1 month before the manufactured fight and being thrown into Sanctuary and DYA after that. She would trump up the charge of "teen pregnancy" risk, and work in tandem with "Mr Wise" as a counselor, erasing my records and removing my documented history as a student at GWHS before I would be released back to foster care with the two teachers who were actively employed at GWHS and DOE.
